## PERSONALIZED REMEDIES REPORT

This comprehensive report outlines the spiritual and practical remedies tailored to your active planetary cycles (Antardasha). Following these practices helps harmonize the planetary energies affecting your life during these specific dates.

### ☆ The Power of Mantra Chanting

When you chant a mantra over and over, its calming energy sinks deep into your subconscious mind, reaching your oldest memories and deepest habits.

Because of this deep reach, repeating a mantra helps you:

- **Break stubborn habits:** It helps you overcome deep-rooted addictions and emotional baggage, freeing up the mental energy that was trapped by them.
- **Let go of negativity:** It helps you stop repeating toxic emotional cycles and bad moods.
- **Balance astrological influences:** In astrology, it is believed to calm down any negative energy from the planets affecting your life, paving the way for your wishes to come true.

### 🕉 21-Day Mantra Chanting (Jaap) Guide

Here is a simple, easy-to-follow guide for your 21-day mantra chanting (Jaap) routine:

#### 1. Setting Up Your Practice

- **When and Where:** Do this every night after 9:00 PM. Try to sit in the exact same spot at the exact same time every day.
- **How to Sit:** Sit comfortably on a mat on the floor. Face East, North, or West.
- **Your Chanting Beads (Mala):** Use a 5-faced (Panchmukhi) Rudraksha or Tulsi bead necklace. This mala should belong only to you—do not share it.
- **Lighting the Lamp (Diya):** Light a small clay or brass lamp, and make sure it stays lit the entire time you are chanting.
- **Which oil to use:** Use mustard or sesame oil if you are chanting for the planets Rahu, Ketu, or Saturn. Use ghee (clarified butter) for all other planets.

#### 2. Figuring Out Your Daily Goal

Since a standard mala has 108 beads, here is the easy way to calculate how many rounds (malas) you need to do each day to reach your total goal in 21 days:

1. Divide your total target number by 108.
2. Divide that answer by 21 (for the 21 days).
3. Round up to the next whole number.

**Example:** If your goal is 23,000 chants:

$23,000 \div 108 = 213$  total malas needed.

$213 \div 21$  days = 10.14 malas per day.

Round up to **11 malas per day**.

### 3. Daily Rules and Diet

- **Hygiene:** You don't need to take a fresh shower in the evening before you start; just be clean and wash your hands and face.
- **What to Eat:** Eat simple, pure food. It is highly recommended to avoid onion and garlic during these 21 days.
- **Strictly Avoid:** Do not consume any alcohol or non-vegetarian food (meat, fish, eggs) while doing this 21-day practice.

### 4. Special Situations & Exceptions

- **For Women:** If irregular periods might interrupt a 21-day streak, you can compress the routine into 16 days instead. Just recalculate the math above by dividing by 16 instead of 21 so you do more chants per day.
- **For Mothers:** A mother is allowed to do this chanting practice on behalf of her young children.
